Relevant Experience

Project Manager

2016 – Present

FurryCanva

GuangDong, CN

- Lead the development of applications with JavaScript frameworks and libraries that support efficient web development using MERN (MongoDB, Express.js, React.js, Node.js), and other libraries.
 - Develop interactive web applications using Google, Netflix, Amazon, and other APIs.
-

Full-Stack Developer	2015 – 2016
----------------------	-------------

CommerceLabs, Contract	NY, US
------------------------	--------

◦ From prototyping, developing, testing, and iterating our core mobile & web ordering product to the unique challenges in maintaining a white labeled application to be used by thousands of clients, my engineering experience here has been filled with a lot of fun problems in scalability and architecture.

Mobile Developer	2014 – 2014
------------------	-------------

Gigster, Internship	NY, US
---------------------	--------

◦ My internship consisted of iOS development for our team's project, The Dime Club, where I developed and tested main user flows using Objective-C and XCTest!
